IS A CALM WITNESS

By WILLIAM K. HUTCHINSON
(U. S. Staff Correspondent.)

Washington, March 14.—The most amazing story of bribery, corruption and intrigue that was ever spread upon public records concerning people high in government life, was divulged to the Senate committee investigating Attorney General Harry M. Daugherty today by Gaston B. Means, a former operative of the Department of Justice, whose checkered career has led him in and out of many spectacular criminal cases.

Seaport tumbled over sensation that the grave senators and startled spectators could hardly follow the significance of Means' lurid allegations—but the high point came when he declared that in February, 1922, he collected \$100,000 in cash from a Japanese aircraft representative here and turned the money over to Joseph M. Smith, the close friend and confidant of the Attorney General, who committed suicide in Daugherty's apartment here a year ago.

The money—a new one thousand dollar bill—a full hundred of them—Means said, was delivered to him in a Bellevue hotel here, near the Department of Justice.

It came from the representative of the Mitsui Company, a Japanese concern, which was the financial backer of the Standard Aircraft Corporation, against which corporation the Government at that time had a war fraud suit involving several millions of dollars.

Subsequently, it developed, the Government's suit against the Standard Aircraft Company was withdrawn at the request of the War Department.

What became of this money, who got it, and what was it for, were topics that Means said he could not answer. He simply said that as an agent of the Department of Justice, at Smith's orders, he met the Japanese gentleman in the Bellevue hotel, collected the cash and turned it over to Smith.

Only a few moments before he had calmly related this startling story, Means had declared that he took Smith's orders just as he had taken orders from Attorney General Daugherty himself or William J. Burns, for he declared, he had always "understood" that Smith was the "go-between" for the Attorney General, that Smith was the Attorney General's "right hand man" and that when Daugherty was out of town Smith occupied his desk.

Means himself is under indictment in New York for alleged attempt to bribe Daugherty, and he waived all immunity this morning when he took the stand before the senatorial committee.

Means testified that he had collected some thousands of dollars in connection with the exhibition of the Dempsey-Carpentier fight pictures and turned it over to Smith, and that he had collected around \$35,000 or \$40,000 "in liquor transactions" and also turned it over to Smith.

Means created another sensation in the crowded and breathless committee room when he declared that the Standard Aircraft Corporation, through its president, a Mr. Mingle, sold to the Japanese Government the models of airplanes used by the United States

Government.

This is a phase of the matter that was not pursued with any diligence this morning, but will be gone into later, according to the startled senators.

While the Japanese bribery aspect was the most startling of Means' many allegations, some of his other testimony was scarcely less sensational in its revelations concerning official life in Washington.

He asserted that he had acted as an investigator for President Warren G. Harding, who "wanted some information" concerning Secretary of the Treasury Andrew W. Mellon in connection "with liquor withdrawals."

He asserted he had investigated Senator Robert M. LaFollette, Republican of Wisconsin, at the direction of Smith, after LaFollette had introduced his original resolution calling for a Senate investigation of Teapot Dome, and he calmly admitted he knew of LaFollette's mail being rifled, his office gone through and otherwise "investigated" him.

He declared he had also, at Smith's direction, "investigated" Senator Caraway, Democrat, of Arkansas, one of the authors of the last year's impeachment proceedings against Daugherty.

He said he had "investigated" Senator Bruce, Democrat, of Maryland, on behalf of some "financial people."

And, finally, he said, he had been suspended as an agent of the Department of Justice, because he became "too active" in investigating the oil situation and the Mexican situation.

Daugherty told him at the time of his suspension, Means said, that he was being suspended at the request of another cabinet officer. The inference was that it was Albert B. Fall.

Means told his amazing story in an atmosphere of tenseness in the crowded Senate room that has seldom, if ever, been equalled. He spoke easily, naturally, and seemed in a very good humor. Sometimes he threw the room in a gale of laughter with "wise cracks" about important officials in Washington and the relations he had with them.

Means said he had been selected for investigating work by the President because of a recommendation by Underwood.

"What under-cover investigation did you make in New York for the President of the United States?"

"Well, the prime investigation was concerning an arrangement that Secretary Mellon had gone in, to furnish certain permits."

"We didn't get him that time. He slipped through our fingers that time."

"Who paid you for those investigations you said were made for the President of the United States?"

"Jesse Smith and Mr. Underwood."

Means said he had also investigated Senator Caraway, Dem., of Ark.

"I sent for Laura Jacobson to come up from Arkansas to help me investigate Senator Caraway and I let Jacobson do the work."

"When was this investigation ordered into the Senator?"

"When he was making an attack on the President and the Attorney General."

"Did you ever investigate Senator LaFollette?"

"Yes, sir. Jesse Smith gave me the orders."

"You searched Senator LaFollette's office in the Capitol didn't you?"

"No, sir. I know it was done."

"Have you gone through my office yet?"

"No, sir. If some one will assign me."

**CHLOROFORMED GIRL
IN HER SLEEP SAYS
NORRISTOWN YOUTH**

Norristown, Pa., March 14. (INS.)

Exhumation of the body of Miss Louise Bruppacher, 17, was being considered by the Montgomery county Coroner today as a consequence of a confession made to police late yesterday by Harold W. Dean, 22-year-old printer, that he had chloroformed the girl to death in her sleep on the night of February 29. Miss Bruppacher was his sweetheart and he said he brooded over her choice of companions he considered undesirable.

The girl was buried March 6 after her death had been attributed to influenza. Dean was among the mourners.

**SOPHOMORE PLAY
LAST EVENING A
DECIDED SUCCESS**

The Sophomore Class play given at the High School auditorium last evening attracted a capacity audience. The title of the play was "Eliza Comes to Stay" a comedy by H. V. Emond and the manner of its portrayal highly pleased all who saw it.

Each part was very well taken, the young people engaged acquitting themselves in a highly creditable manner, reflecting great credit upon all who participated with especial regard for those who tutored the embryo actors and actresses.

**PUPPY RACES LEAD
CLERK INTO \$25,701
DEFAULT**

Philadelphia, March 13. (INS.)—Arraigned before a magistrate here today, Walter O. Beers, 24, a one-eyed, \$15 dollar a week clerk, charged with fraudulent conversion and larceny of \$25,701 from the Land Title and Trust Company, had his downfall blamed on a "Passion for betting on dog races."

Counsel for the Trust Company made this assertion, alleging Beers had lost heavily on the Atlantic City whippets.

Beers claimed inability to support his wife on the low salary caused him to succumb to temptation. He was held for court in \$8,000 bail.

**BRADFORD TOWNSHIP WOMAN
DIES**

Mrs. Catherine Bennehoof died at the home of her daughter, Mrs. Ida Kline, of Shiloh, on Wednesday, March 13th, aged 82 years.

She is survived by one daughter, Mrs. Ida Kline, of Shiloh, and one son, H. W. Graffius, of Clearfield.

Funeral services will be held at the Kline home Saturday morning at 10 o'clock. Rev. Moses, of Bigler, will officiate and interment will be made at Shiloh.

**JUDGE WILBUR WILL
BE NEW SECRETARY
OF NAVY; IS IOWAN**

Now Is Chief Justice of California's Supreme Court; Kenyon Would Not Accept the Place.

TEDDY SITS UNEASY

Washington, March 14. (INS.)—Curtis D. Wilbur, Chief Justice of the California Supreme Court, will be the new secretary of the Navy, succeeding Edwin Denby, who resigned on March 10 because of the investigation into naval oil leases.

President Coolidge prevailed upon the California jurist to accept the post after Judge Wm. S. Kenyon of Iowa, had declined to be "drafted" to serve. The acceptance of Justice Wilbur was received at the White House early this morning by telegraph.

Justice Wilbur will be one of the few graduates of the United States naval academy, who has occupied the naval post in the cabinet. He graduated at Annapolis in 1888, but forsook a naval career almost immediately and took up law, starting practice at Los Angeles two years later. He became a deputy district attorney in 1899, and in 1903 went to the bench where he has remained since.

Wilbur was born in Booneville, Iowa, and is 56 years old.

The President's first cabinet nomination is expected to go to the Senate at once where immediate action will be requested by Senator Shortridge of California, who was instrumental in getting Wilbur to accept the cabinet post.

Wilbur is not expected to come to Washington until the nomination has been confirmed by the Senate and in the meantime Theodore Roosevelt, Jr., will remain in charge of the navy department as acting secretary. Whether or not Roosevelt will continue to serve as Assistant Secretary after Wilbur takes the oath of office was a matter of conjecture today, but it was understood that Roosevelt would offer his resignation to the President.

**Committee Use Man Who
Tried to Bribe Daugherty
As Witness Against Him**

Washington, March 14. (INS.)—Gaston B. Means, former investigator of the Department of Justice, and now under indictment in New York on charges of endeavoring to bribe Attorney General Harry M. Daugherty, was the first witness called today by the Wheeler-Brookhart committee, in its investigation of Daugherty and the Department of Justice.

Means, who has figured in a number of trials and investigations took the stand over the protests of Daugherty's lawyers, who claimed that the fact that Means was under indictment in New York alone was sufficient to make him an improper witness. Means took the stand however, despite the protests.

**British Miners Will Take
A Vote On Strike This
Sunday; Walkout Likely**

London, March 14. (INS.)—A British coal strike loomed on the industrial horizon today as a result of the decision of the miners' delegates that they could not accept the compromise wage terms presented by the colliery owners. The miners will vote Sunday upon a strike.

Ten thousand railway freight handlers struck today because of wage dispute. Shippers are appealing to the government for intervention.

Comrade James Sutton, of Locust street who has been confined to his home for several weeks is not much improved at this writing.

PENNSY-GRAMS

Pittsburgh.—Income tax collectors offices here were swamped today with late income tax returns being filed.

Sharon.—Youngstown members of the party workers (Communists) are here to "investigate" the police department.

New Castle.—Ministers and the Woman's club here are at odds over the question of allowing dancing in the city schools. The school board has postponed decision on the dancing problem.

Pittsburgh.—Thirteen prisoners are being held here in connection with dope raids in Uniontown yesterday. Twelve other prisoners are held at Uniontown. Several women were arrested.

Pittsburgh.—Superintendent of Police Edward J. Brophy announced today that as a result of close watch on roads Pittsburgh is virtually "dry." Bootleggers are investigating the report.

Beaver.—Charged with assault and battery, Joseph Shavensky said the crime was the work of his twin brother.

The jury couldn't see the resemblance and returned a verdict of guilty.

Philadelphia.—Daylight "Savings" will begin in this city April 27 and continue until Sept. 28, according to a resolution of city council.

Philadelphia.—Great Britain radio stations were heard here last night by a number of Philadelphians.

Philadelphia.—A new 48-hour vice drive started at 8 o'clock this morning.

**ROTES' PULL STUNTS
FOR ROTARY ANNES
AT DIMELING**

The Clearfield Rotary Club entertained their ladies and invited guests at the Dimeling Hotel last evening. About one hundred and fifty people were present and a most delightful time was had by all.

The Entertainment Committee presented a varied program following the disposal of the "eats." The chief feature of the "session of fun" aside from the appearance of Miss Ethel Lyman Mackey, soprano, and Miss Mary Hopkins Emerson, pianist, of New York City, was the "Reuben and Rachel" chorus put on by Manager Ed Reeve's Gazeam Dramatic Club. There were four properly accoutred couples in the show, such well known stars as the Wilson boys, "Pop" and "Ward," Hobart Callahan and Sam Powellski representing the Rubes.

The "giddy girls" making up the Rubes were Howard Stewart, Ralph Jordan, Russell Shaw and Thornton Hile. A quartette of Market street teachers helped "put the show across," which proved a real scream.

We would draw the broad mantle of charity over the next number and try to forget it were not our well known reputation for speaking the truth at all times at stake, and we must mention John Short's base drum solo. It was very much to the "Ta ra ra boom de ay," but was saved from the total loss by the magnificent cymbal accompaniment of y scribe. Thanks.

Miss Mackey's singing was greatly enjoyed, that young lady responding very obligingly to encore after encore. Miss Mackey and Miss Emerson entered thoroughly into the spirit of the occasion and gave full measure of their great talents to make the evening the success it was.

Song leader C. Glen Fickes of Harrisburg, also did his part well, while Joe Ketter, the Grove City entertainer, scored a big hit with his line.

President Albert and his efficient committee were heartily congratulated by all present on the success they made of the occasion. Roy Hyde, Albert Bigler and Gurney Smith made a committee hard to beat.

Russell Williams and John C. Armstrong left yesterday to drive to Williamsport to attend the sessions of the M. E. conference.

**MONESSEN A WINNER
IN BASKETBALL TOO,
HOMESTEAD LIKELY**

Pittsburgh, Pa., March 14. (INS.)—Monessen High School's basketball team fought its way into the last semi-final in the W. P. I. A. L. tournament here last night by trimming Connellsville, 21 to 17.

With last night's victory the upstart team wins the right to meet the winner of the Homestead-Beaver Falls semi-final. Homestead is being touted to repeat its championship of last year.

Monessen came back after a bad start last night the Connellsville Quintet scoring six points before the Monessen team got started. The first quarter, however ended 816 with Monessen leading. The Cokers regained the lead later in the game with a 21 to 17 score, but Monessen again rallied for a win.

**BROPHY CONTROLS
DISTRICT NO. TWO
DESPITE STILES**

Altoona, Pa., March 14. (INS.)—In the first real test of strength between John Brophy, President of District Number 2, United Mine Workers of America and followers of T. D. Stiles, Editor of the Penn Central News, a Labor Paper published at Crescon, showed that Brophy is in control of the District convention being held here.

On a motion to defer action on the President's report Brophy won by a 123 to 63 vote.

The Somerset county strike which cost the district more than \$1,000,000 was discussed the entire morning with heated harangues.

This is the third day it has been under discussion and much bitterness was shown between Brophy's followers and those who are questioning his course in spending a huge sum for strike benefits.

**Mrs. Stillman Wins Long
Court Battle To Head Off
Husband's Allegations**

New York, March 14. (INS.)—Mrs. Anne U. Stillman today won her long legal battle to prevent her husband James A. Stillman from re-opening of his suit to have Baby Guy Stillman declared illegitimate and seeking to establish grounds on which to sue for divorce.

JAMES GRAFFIUS

James Graffius died at the home of his daughter, Mrs. W. F. Knepp at Shiloh Friday morning at 9 o'clock, March 7, 1924, aged 30 years 22 days.

Mr. Graffius was a devoted member of the U. B. church at Woodland for many years, taking an active part in church work since boyhood up until his health did not permit.

He was married in 1899 to Mrs. Charlotte Rhimer. To this union were born eight children, four surviving. His wife passed away nine years ago.

His children are as follows: Mrs. W. F. Knepp of Shiloh; Mrs. W. N. Fisher of Glen Campbell; Mrs. Port. Wise and Mitchell Graffius of Clearfield. A sister survived him at his death but she too passed away four days later on March 12 at 6 o'clock.

His twin brother passed away two years ago. He also leaves 44 grand children and 37 great grand children. The funeral services were conducted by Rev. Hunnell of Woodland. Interment in Shiloh cemetery.

**FIRE AT Y. M. C. A. SECRETARY'S
HOME**

The residence occupied by Secretary Book of the Y. M. C. A., and located at the corner of William and West Pine streets, was discovered to be on fire about 2:20 o'clock this afternoon. The fire alarm was sounded and the firemen were soon on the job. The fire was located in the upper part of the house and had burst through the roof before the alarm was given.

**LOCAL CONCERN IS
BRANCHING OUT
WITH A NEW PLANT**

Workman's Overall and Shir. Company Begin New Plant This Week at Grampian, Pa.

HAVE BIG OUTPUT

The Workman's Overall and Shir. Co., are to be congratulated upon the signal success which they have attained in less than two years, having been incorporated July 1, 1922. They are now putting out over fifteen thousand dozen pairs of overalls in a year and employ fifty persons, nearly all of whom are girls.

The company have outgrown their present quarters and have been compelled to start a plant at Grampian which will be an auxiliary to the main plant here. The building has been bought and, if the machinery arrives in time to be installed, they expect to start about April 1.

The products of this company in material and workmanship are second to none and the prices are lower for the same grade of goods, than their competitors.

The people of Clearfield and Grampian are to be congratulated upon having such an enterprising company located in their midst.

The president of this growing organization is A. C. Scholtz, secretary is J. S. Mann and vice president is E. Clair Davis.

**"WHITE HORSE" NOW
A "WHITE ELEPHANT"
SAYS PHILIPSBURGER**

Booze, these days, is bound to get a fellow in trouble regardless of whether he drinks it, sells it, or just has it lying around. That this is true Brooks and Jim Butler, of Philipsburg, are willing to bear witness.

Some time ago a series of big robberies were pulled off in Philadelphia by a gang of crooks who did a little bootlegging or rum running on the side, when police activities made their regular occupations hazardous.

One of the gang was taken into custody last week and on his person was found a letter from one of the Philadelphia men which read: "Still have my stuff on hand; haven't been able to get rid of it yet." A Philadelphia detective came to Philipsburg yesterday and accompanied by P. B. R. officer Henderson of Osceola and State Troopers Barker and Pierce made a search of the Butler home at Point Lookout expecting to find some of the loot stolen in Philadelphia. They were disappointed however, but the search did reveal three suit cases full of alleged bonded liquor. This was evidently "the stuff" referred to in Butler's letter and had evidently been in his possession for some time as the newspapers in which each bottle was wrapped were dated November, 1922.

The whiskey was labeled "White Horse," and it proved to be a "White elephant" for the Butlers as the liquor was confiscated and the two men held in \$300 bail each by Squire Morgan at Chester Hill, for their appearance at Clearfield county's May term of court.

**SEN. WALSH ILL;
THE PROBE OF OIL
LEASE IS HALTED**

Washington, March 14.—Investigation of the stock deals alleged to have been engaged in by public officials in connection with the leasing of Naval Oil Reserves to H. F. Sinclair and E. L. Doherty was suspended today until next Tuesday.

Today's sessions of the Senate Public Land Committee was called off a few minutes before the open hearing was due to start. The reason assigned was the illness of Senator Thomas J. Walsh, who has been the chief figure in the sensational investigation.

WITNESS TELLS AMAZING TALE

(Continued From Page One.)

"I'll go to it," Means replied and went out.

When did you investigate La Follette?

April, right after he introduced resolution to investigate Teapot Dome.

Who gave you those orders?

Means explained he had investigated "Senators as well as Bishops."

But we don't get much on a Senator, Means added, "they are a pretty crowd."

Who makes these investigations—financial crowd?

Yes sir. It wouldn't be the church and they have no money.

Means said he was ordered to "get nothing from LaFollette to stop Teapot Dome investigation."

If they got something on him, would get word to him through friends to get the soft pedal on."

What do you mean by searching office?

Oh, see what letters he got, who they were, and what was going on in office," he replied.

How did you conduct the LaFollette investigation?

The same as a criminal investigation, to get everything, to examine mail and so forth."

How paid you?

Means Smith, by cash.

Was he acting under orders from Attorney General?

I don't know.

How wasn't he giving the Attorney General Reports?

I don't know, if the Attorney General was getting the reports," Means said.

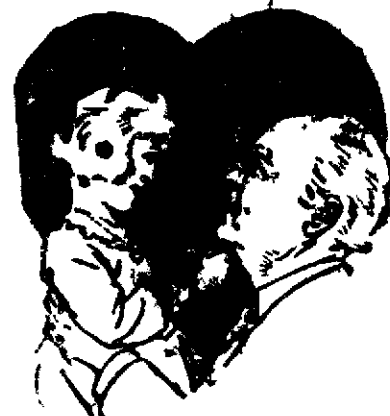

Didn't Jesse Smith tell you he was using it for the Attorney General?

Asked Wheeler.

Yes Sir.

How mean these investigations were on orders from Attorney General?" asked Moses.

I was given orders by Smith and out and acted. I didn't ask questions.

Arranging Flowers.
It is most effective in a tall glass vase. Almost all flowers have great beauty in their stems, hence glass vases give them the greatest beauty when they are cut, by showing the stems. It should be arranged only with its own foliage. Wild flowers should always be loosely arranged, and they should be placed by them selves—not in close proximity to the highly cultivated garden sort.

Serbian Superstition.
On the eve of St. Barbara's day in Serbia it is a custom to boil a small portion of every species of grain in a pot over a woodfire. In the morning the surface of the grain is critically examined, and should it be uneven, it is thought a good omen. The grain is then thrown in sponges into a neighbor's stream, and if three wishes are asked for they are always said to be granted.

World's Thickest Tree.
It is said the largest tree known, in thickness, is a partly-decayed chestnut in Sicily, which is 80 feet across. Mexican cypress and the oriental plane have reached 40 feet. This puts the California big tree and the baobab in the background, but the big tree is of greater bulk in combined height and girth and the baobab is thickest in relation to height.

People With Bad Blood and Weak Stomach Suffer Most in Winter

Each Year During the Winter and Spring Thin Blooded, Anemic People Are the First to Catch Colds, Pneumonia, and Are Easy Victims of Other Diseases

LOCAL DRUGGIST SAYS WE ALL NEED STOMACH AND BLOOD TONIC THIS TIME OF YEAR

RICHER BLOOD, GOOD APPETITE, MORE PEP
Stick in Time Saves Nine—Druggist Guarantees Quick, Sure Easy Results

Elderly people and those suffering from various forms of stomach trouble, whose blood is not as rich as it should be, are among the first to catch colds, pneumonia and the various other diseases that are so common during the Winter and Spring. This is especially true when systems, that were none too strong at the beginning of Winter, have been weakened by the months of cold weather.

Weak, frail and delicate people are always the first victims. They take cold easily and do not have the strength to keep it from developing into pneumonia and various other fatal diseases. With the assistance of the right medicine, however, they can easily build up and strengthen their systems so that they will be as immune to disease as other people.

The blood can be enriched and with plenty of rich red blood you will not mind cold or the alternate warm and cold days of early Spring. Your digestion can be stimulated and your appetite increased so that you can digest the heavier and more nourishing foods your body needs at this time of the year.

The druggists here in Clearfield have joined the Nation-wide drive to make people see the wisdom of taking a good strengthening blood-enriching appetite-increasing medicine at this time of the year, like our forefathers did. Druggists are in position to know the need of such a medicine and see every day the foolishness of attempting to withstand in a weakened condition the winds and rains of March and April when it freezes at night and thaws out during the day. They know that more people die during the early Spring than at any time of the year.

In Sulac, a certified product of Southern Laboratories, Incorporated, Atlanta, Georgia, has been found the ideal builder for this time of the year. It has a long record of success in other territories and while it has not been on the local market for a long time, it is proving as successful here as in other sections. Sulac is not an experiment, it is a proven success and if your health is not all that it should be, the wise thing for you to do is to give it a thorough trial. Sulac, you know, is sold on a satisfaction or money-back guarantee.

Sulac is sold by Hunter's Drug Store, Clearfield, Pa., and other high class druggists.

Real Estate Man Suffered Years With Stomach

One Bottle of New Remedy Does More Than Years of Trying Other Things, He Says

TAKES SULAC, GAINS NEW LEASE ON LIFE

The other day a gentleman who is known by thousands all over New England, walked into a Worcester drug store. He came all the way to Worcester to get three more bottles of Sulac and to tell the store what a wonderful remedy Sulac is. All his many friends know he has complained and suffered with stomach trouble for years and doctors, treated, dieted and done everything known in an effort to get relief. "I've come all the way to Worcester to get these three bottles of Sulac and if they were the last three bottles I could buy I wouldn't take a thousand dollars for them," enthusiastically declared this popular real estate and lumber merchant of Barre, Mass. Mr. Charles B. Mathews, former selectman of Holden, and father of six boys and two girls.

"For four years I suffered untold agony with my stomach. I would fill up with gas and get so bloated after a meal my heart would palpitate so I could hardly breathe. I felt like a ton of lead was inside me pressing me down. I had nagging headaches. Constipation worried and kept me busy taking pills. I had every symptom you can imagine. I doctored, doped and dieted and did everything folks told me to do. You can tell all my friends now, however, that one bottle of Sulac did more for me than all the other treatments put together. I can truthfully state that my stomach is in better condition than in years and with these three bottles to finish up on I'm going to be in perfect shape. It is the greatest reconstructive medicine money can buy and I figure Sulac has given me a new lease on life," continued Mr. Mathews.

Thousands of people in sections where Sulac has been thoroughly tried out are calling it the world's greatest remedy. They have seen what a wonderful results it brings and feel that they are in position to know what they are talking about.

Sulac is a certified product of the Southern Laboratories. It is made of the finest ingredients and guaranteed to be one of the finest quality and purity. Sulac is sold by the leading druggists of this section. Give it a fair trial and if you do not find the results entirely satisfactory, the drug gist who sold it to you is authorized by the manufacturers to refund you money.

Sulac is sold by Hunter's Drug Store, Clearfield, Pa., and other high class druggists.

ODDS AND ENDS AND THINGS

By J. D. C.

That the spirit of fellowship and comradeship of the trenches and the life "over there" engendered in the hearts of the men of the allied armies may be evidenced by the fact that at Curwensville last Sunday, Aviator Pearson, the U. S. mail clerk, who lost his life in last Friday afternoon's blizzard, it will be remembered was a member of the Canadian flying corps during the war. When his body was brought to the undertaking rooms in Curwensville and prepared for burial the members of Joshua Sipes Post of the American Legion took note of the fact that a comrade in arms had "gone west" and had a committee representing the Post secure and place on the casket a handsome floral wreath decorated with "Old Glory" and the "Union Jack" and that final tribute of one ex-service man to another went with the remains when they were shipped to Chicago and their final destination in Canada. It was a little thing to do but it expressed a world of thoughtfulness and sentiment.

Manhood is the weakest and most imperfect of animals and is prevented from doing useful work because of his shape, according to Professor F. W. Bar-tall, dean of the faculty of science at Birmingham University. "If I were to design the men and women of the future, I should make them spherical and provide them with wings and feathers," said the professor in a recent speech. "A spherical configuration would enable men to establish a four-hour working day and do as much work as present-day men can do in eight hours," he added.

Thanks for "them kind words." They go far toward reconciling us to our present architecture. We don't have far to go any more for "ofrm" although we are some shy and feather.

The Pope will elevate Archbishop Hayes, of New York, and Mundelein, of Chicago, to be cardinals in the Roman Catholic Church at a consistory to be held on April 10th. This elevation of these two eminent churchmen will make an American representation of four in the College of Cardinals.

Because of the necessity of having cardinals in readiness to attend to the multitudinous details incident to the administration of the Holy See, the Sacred College has a greater number of Italian cardinals than of any other nationality. Of the seventy cardinals who will constitute the Sacred College after the elevation of Archbishop Hayes and Mundelein, Italy will be represented by 29 members. Then comes Spain with seven, France with six and the United States with four. Other countries are represented as follows: Germany three, England two, Austria two, and one each in Ireland, Czechoslovakia, Brazil, Belgium, Portugal, Holland, Canada, Hungary, Poland and Monaco.

Ancient Governments Similar.

The Aztecs and the Incas had governments much like those of European nations of the same era. Anthropologists do not consider this an evidence that there existed a prehistoric link between the old and the new worlds. Men under similar environments develop similar institutions.

SIMPLE WAY TO TAKE OFF FAT

There can be nothing simpler than taking a convenient little tablet four times each day until your weight is reduced to normal. That's all—just purchase a box of Marmola Prescription Tablets from your druggist for one dollar, the same price the world over. Follow directions—no starvation dieting or tireless exercising. Eat substantial food—be as lazy as you like and keep on getting slimmer. And the best part of Marmola Prescription Tablets is they are harmless. That is your absolute safeguard. Purchase them from your druggist, or send direct to Marmola Co., 4612 Woodward Ave., Detroit, Mich.

Smart Whims of New Hats

March Millinery

Spring hats all have some way of revealing happy dispositions. Some have gay circles of petit point on their crowns and many are sunshiny with Roman striped ribbon. It's easy for women to smile from under the brims of hats as jolly as these.

Tricornes for Chic

"Feminine hearts will be cornered" came into our heads as we saw the irresistible tricornes of taffeta. Fitting down tightly over closely-clipped heads, they are truly smart with their simple cocarde trimmings. A flannel frock of most any color can be perfectly matched, you will find.

Surely a Variety

They are like the whims of a charming woman, unexpected but delightful. Lustrous taffeta and pliable satin are combined, in many cases, with new silky straws. The sweeping lines of a black tricorn have for sole adornment a lace veil which winds around the throat. Embroidery in Spanish shawl pattern makes vivid a rather large picture hat. Crowns of petit point are seen on the newest cloches, and faille ribbon is cunningly fashioned into skullcaps and turbans. Colors are vivid or delicate, and sometimes have a black background.

LEADCLAD

Nothing but PURE LEAD exposed to weather.

Lead cannot rust.

Why spout your building every four or five years? Use LEADCLAD and save worry and expense.

LEADCLAD is made by coating a special analysis base with an extra heavy coating of pure lead by a process that positively eliminates pin holes or fractures in the coating. We have termed LEADCLAD as a 60-pound coating, which is 50 per cent heavier than the coating on ordinary 40-pound tarps, but in reality, LEADCLAD carries a coating equivalent to about 66 pounds per box of 412 sheets. This is almost three times as much as the coating of zinc applied to Galvanized sheets. LEADCLAD will last without painting at least twice as long as Galvanized or tin plate, and when we make this statement, we are playing safe because in practically every instance, LEADCLAD has lasted four or six times longer than Galvanized material of the same gauge and under the same conditions.

REPUDIATING MOHAMMED

It is a bold thing that the Turks are doing in banishing the Caliph, seizing church property and virtually banning the Mohammedan religion in Turkey. They may make or break the Turks. Always the Turks have been associated with Mohammedanism. They were fiery followers of the Prophet when as a semi-barbarous tribe they invaded Europe and seized Constantinople. For 400 years the ruler of Turkey was the spiritual head of the Moslem church, until Mustapha Kemal, head of the Turkish Nationalists now in power, separated the church and state a year ago, exiling the old Sultan and turning the Caliphate over to his heir, Abdul Medjid. Now Turkey follows the example of Soviet Russia with the Greek church, and going further than Lenin dared go. Turkey and Islam at last are divorced. The other 200,000,000 or so of Mohammedans, in Asia, Africa and southeastern Europe, may do as they like, but Turkey will have no more of Mohammed, in whose name Turkey so long waxed great and powerful.

The Turks now stand absolutely on their own feet. They need no longer expect any support from Mohammedan countries, religious or military. They have dealt a blow at Mohammedanism itself in repudiating the faith, and thereby made Christendom a little easier in its mind. A new uprising of Islam is now hardly thinkable. But how about Turkey itself?

The Turks have always been soldiers and despots. When they were prosperous, their prosperity came from the exploitation of other faiths and races. They have not been builders, in art or literature or industry or commerce. When not fighting they have been mainly farmers of a crude sort. Their economic life has been carried on mainly by Greeks and Armenians, whom they have recently exiled or reduced to helpless poverty.

It will be interesting to see whether the Turks can really function and prosper as a modern nation, when they renounce the very things that made them great in the past. This may be the new birth of a nation, or it may be national suicide.

Progress Editorials for Women

By FLORENCE DAVIES

Feeling a beating the boy ran away from home. Thus runs the old tragic tale of oppressed childhood. Since time was, boys have left home because their parents were cruel to them and girls have run away because they were forced into drudgery.

Would it surprise you to learn that not beating, but loving attention comes to drive a child away from home?

Too much love never hurt anyone. Not if the love is the right kind. But a good deal that passes for love is often as destructive as cruelty.

A New York bureau whose business it is to trace missing folks has actually coined a name for the parents who are too good rather than too cruel to their children. They call them the "glass-case" parents. They are the kind who keep their young folks so tightly shut up in glass cases that they can't breathe. They aren't cruel about the confinement. Not at all. They are very loving. But their love is stifling, oppressive. And that kind of love is some times as hard to bear as cruelty.

The story is told of a young girl who lived in a home where she had every comfort. Clean socks were neatly laid out every night, buttons were changed in collars and cuffs of clean shirts, meals were wholesome and regular and two loving parents appeared shivering in bath robes to greet the young darling after his return from an evening's outing.

Then one day, without word of warning, supper grew cold while they waited for their darling to come home. The police bureau found him finally in Brazil, where he had shipped as a deck-hand on a steamer.

He hadn't really wanted to hurt his parents, but he just couldn't stand the pressure; he had to expand, to burst his bounds, to get out of the glass case and be himself.

Nations, like individuals, hold freedom as their dearest possession. And just as surely as darkness follows day, the dawn of personality of the individual brings with it a desire for some untrammelled expression of that personality.

The thing that the glass case parents do not see is that kindness as well as cruelty stifles that fundamental need for freedom of expression. There are a good many forty and fifty year old sons and daughters who are grown grey in the service of either parent or husband or wife, who sometimes feel the oppression of a great kindness.

If you are wise in the needs of human nature, you will understand that there are times when a little judicious letting folks alone, is the greatest gift that you can make to them.

Modern Methods in Philippines.
The practice of planting cowpox on sugar lands between crops to increase the soil fertility is being successfully introduced in the Philippines.

Persistent.
"You wouldn't kiss a girl against her will, would you?" asked the leap-year maiden. "No, I would not." Then she tried another approach. "Would you resist very much if a girl tried to kiss you?"—London Answers.

Takes pills for years—finds first permanent relief in Kellogg's Bran

Have you found permanent relief from that terrible disease—constipation? The woman whose letter follows discovered—as thousands have discovered—that Kellogg's Bran succeeds when all else fails. This is because Kellogg's Bran is ALL bran. Nothing but ALL bran can be so effective. This is what she wrote:

"Gentlemen:
I am so wonderfully happy over my discovery. I feel I must tell the world about it. For years I have been in continual constipation, always resorting to pills or other means, never having any permanent relief until I heard of your Bran. Every morning I take two tablespoons before my breakfast—and since the latter part of August I have not had one single day which I have had for years. I have started my little girl

of four years on your Bran, and already I have noticed a change in her. I thank you."
Name and address furnished on request. Write the Kellogg Co., Battle Creek, Mich.

If eaten regularly, Kellogg's Bran, cooked and krumbled, is guaranteed to relieve permanently the most chronic cases of constipation. Eat at least two tablespoonfuls daily—in chronic cases, with every meal. Money returned, if not effective.
Notice the wonderful nut-like flavor. This flavor is delicious—so different from ordinary, unpalatable bran. Kellogg's Bran, cooked and krumbled, made in Battle Creek, is served by America's leading hotels and clubs. Demand Kellogg's Bran. It will bring back your health. Start eating it today. Sold by all grocers.

SCOTT EMUL

Says---Now Stiff Joints Must Go!

Now Discover Limber Up and Even the Creaking Creaks

Yes, it's true--the world progresses. All you have to do nowadays to limber up that stiff, dusty knee joint is to squeeze a half inch of meringue substance from a tube.

Then rub it on the offending part for about a quarter of a minute or until it soaks through the skin and appears on its errand of mercy.

Then read the evening newspaper and go to bed.

The chances are that your meringue having knee joint will lose its "crack" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you feel so happy that you'll want to jump into your sportiest clothes and wallop briskly down the street just to show the neighbors that you are no longer as they think you are."

Joint-Ease they call this wonder-working substance. For the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatism joints, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, safe, non-prescription that in just a few months has proven to a multitude of people that lame, swollen, rheumatic joints can speedily have the limbering up of them and work as well as ever.

But Joint-Ease is for both men and women, whether in knee, ankle, hip, shoulder, spine or finger, and for that purpose its sale is increasing.

Stewart Drug Co. has a big supply of it and distributes everywhere except a big demand.

Hottest Taxes.

"The taxes are indeed very heavy, and if they are laid on by the government with the only aim we had to pay we might more easily discharge them; but we have many others and much more grievous in some of us. We are taxed twice as much by our illnesses, three times as much by our pride and four times as much by our folly."—Franklin.

Thawing Pipes With Electricity.

Electricity is the only agent which can thaw frozen water pipes without their being dug up. With the action of electricity the pipe can be easily thawed in a short time, the passage of current through the pipe heating it sufficiently to melt the ice.

Without Aid.

Robbins had been very sick and the doctor had called once more to hurry to his bedside. He hurried as fast as he could and arrived out of breath. "Am I in time to be of any assistance?" he asked. "None, you're too late, doc," answered one of the lodge members. "He has made it by himself."

Stubborn Coughs Stop Quick With Home Made Cough Mixture

Not until you make your own cough mixture—a half pint of it for a small child—will you know how easy it is to make.

It's pleasant-tasting, but that doesn't stop it from knocking out a cough quicker than anything else in the world. Children love it.

Get children's coughs, or any druggist, one ounce of Parvint (though it's right to this add a little powdered sugar, as directed) and enough water to make one half pint—stir all there is to it.

This soothes the phlegm, stops the irritation, always the inflammation, clears out clogged nostrils, makes breathing easier and causes sore throats and hoarseness to disappear. With speed almost beyond belief this home-made cough mixture stops the toughest head-on cough, and all because in it there is a substance (the curdy for ordinary cough syrup) that immediately covers the membrane like a soothing healing film and blessed relief comes at once.

Fresh Strawberries Tomorrow

Of course, as the season advances, these strawberries are getting nicer and nicer. They are ripe and great large berries. They come in heaping baskets pressed down tight.

THE CONQUEST OF SMALLPOX

Smallpox found its way into America in 1607, 16 years after the discovery. Ten years later it destroyed the greater part of the population of Santo Domingo, and in 1520, it is said, 3,400,000 persons died of the disease in Mexico. It was the chief agent in wiping out the Indians. In some parts of Russia in 1850 smallpox caused the death of 80 per cent of the population, nearly all of the children in certain towns dying of it. These facts enable one to appreciate the statement of Dr. Wilmer R. Batt, chief of the Bureau of Vital Statistics, that not a single death from smallpox was reported in Pennsylvania last year.

Latin America

The term Latin America includes all the countries of South America, of Central America and Mexico, so called because they were so called and peopled by Latin races, chiefly Spanish. They all speak the Spanish language in different degrees of purity, except Brazil, where Portuguese is the national language, and Haiti, where French is national. Portuguese and French, however, are classed as Latin languages.

Where Finest Opals Are Found.

According to some authorities there is only one locality in the world where the finest kind of opals are found. It is the Dubnyk mine, near Czerevitz, in Hungary. At any rate, opals have been taken from that mine for many centuries. The ancient writers speak of opals coming from India, but the precious variety is not now found there, whatever may have been the case in the past.

Comfortable for Baby.

Babies are carried on their mother's long pillows by the peasant women in Hungary. A baby is laid on the pillow, the end is lapped over and is usually long enough to come up to the infant's chin. A string is then tied around the pillow holding it close about the youngster, thus making a snug and comfortable little bed.

"Finicky" Appetites.

Folks with "finicky" appetites are not in the best of health. Either they are afflicted with some disease or else they are too lazy or indolent to give their bodies sufficient amount of their exercise.

Giving Pleasure to Others.

The most delicate and the most sensible of all pleasures consists in promoting the pleasures of others.

Exasperating COUGHS—

NOT only you—but all those around you are annoyed by the constant hacking of a persistent cough. Dr. King's New Discovery breaks coughs quickly by stimulating the mucous membranes to throw off the clogging secretions. Has a pleasant taste. All druggists.

Step out in one of these new Hart Schaffner & Marx Spring suits

YOU'LL get a lot of pleasure out of it. There's the satisfaction in knowing you're wearing the best style to be had the feel of fine, rich woollens and expert tailoring. Then later on you'll appreciate the way the clothes keep their shape and the way they wear. Best of all, you'll realize you've saved yourself some money.

The Knit-tex Coat

IF we were lucky enough to be able to talk to every man who is going to buy a Spring overcoat, we would give him this friendly advice: Come in here and try on a Knit-tex coat first before you buy one.

Knit-tex is different from any overcoat you have ever worn. **IT IS GUARANTEED FOR THREE YEARS' CONTINUOUS WEAR.** It is warm as toast, soft as velvet, and so light that you hardly know you have an overcoat on your shoulder.

Knit-tex is knitted—but you would never know it. The cloth looks like a fine imported overcoating. We have Knit-tex in many beautiful shades of grey, tan, brown, green, blue, heather and Scotch mixtures. Wouldn't you like to come in and just try one on?

A friend in Iowa wrote me how he was cured by taking May's Wonderful Remedy. I took a bottle on his advice with good results and have also taken the full course. My pains are all gone and I feel I am permanently cured." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.

RECOVERING FROM SERIOUS OPERATION

Miss Meriam Smith, daughter of Mr. and Mrs. A. Clyde Smith of Bellefonte, who is a surgical patient at the Clearfield hospital, is improving nicely. Miss Smith had an infection of the spine and Dr. Waterworth performed the difficult operation of bone grafting. A piece of bone ten inches long, in two pieces, was taken from the shin bone and grafted into the vertebrae. She responded splendidly to the treatment and is now on the road to recovery.

Matches of Hemp.
In the use of early firearms a match consisted of a cord of hemp or similar material twisted with nitre so that it continued to smolder after it had been ignited. The match was attached to the cock of the musket and brought down by the action of the trigger on the powder priming.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole. Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister. Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness. To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c in jars and tubes.

WITNESS TELLS AMAZING TALE OF BRIBERY, CORRUPTION AND INTRIGUE

ACCEPTED \$100,000 FROM HIS HANDS,
A BRIBE FROM A JAPANESE CONCERN**

**Charles Mr. Smith Also

IS A CALM WITNESS

By WILLIAM K. HUTCHINSON
(U. S. Staff Correspondent.)

Washington, March 14.—The most amazing story of bribery, corruption and intrigue that was ever spread upon public records concerning people high in government life, was divulged to the Senate committee investigating Attorney General Harry M. Daugherty today by Gaston B. Means, a former operative of the Department of Justice, whose checkered career has led him in and out of many spectacular criminal cases.

Seaport tumbled over sensation that the grave senators and startled spectators could hardly follow the significance of Means' lurid allegations—but the high point came when he declared that in February, 1922, he collected \$100,000 in cash from a Japanese aircraft representative here and turned the money over to Joseph M. Smith, the close friend and confidant of the Attorney General, who committed suicide in Daugherty's apartment here a year ago.

The money—a new one thousand dollar bill—a full hundred of them—Means said, was delivered to him in a Bellevue hotel here, near the Department of Justice.

It came from the representative of the Mitsui Company, a Japanese concern, which was the financial backer of the Standard Aircraft Corporation, against which corporation the Government at that time had a war fraud suit involving several millions of dollars.

Subsequently, it developed, the Government's suit against the Standard Aircraft Company was withdrawn at the request of the War Department.

What became of this money, who got it, and what was it for, were topics that Means said he could not answer. He simply said that as an agent of the Department of Justice, at Smith's orders, he met the Japanese gentleman in the Bellevue hotel, collected the cash and turned it over to Smith.

Only a few moments before he had calmly related this startling story, Means had declared that he took Smith's orders just as he had taken orders from Attorney General Daugherty himself or William J. Burns, for, he declared, he had always "understood" that Smith was the "go-between" for the Attorney General, that Smith was the Attorney General's "right hand man" and that when Daugherty was out of town Smith occupied his desk.

Means himself is under indictment in New York for alleged attempt to bribe Daugherty, and he waived all immunity this morning when he took the stand before the senatorial committee.

Means testified that he had collected some thousands of dollars in connection with the exhibition of the Dempsey-Carpentier fight pictures and turned it over to Smith, and that he had collected around \$35,000 of \$40,000 "in liquor transactions" and also turned it over to Smith.

Means created another sensation in the crowded and breathless committee room when he declared that the Standard Aircraft Corporation, through its president, a Mr. Mingle, sold to the Japanese Government the models of airplanes used by the United States

Government.
This is a phase of the matter that was not pursued with any diligence this morning, but will be gone into later, according to the startled senators.

While the Japanese bribery aspect was the most startling of Means' many allegations, some of his other testimony was scarcely less sensational in its revelations concerning official life in Washington.

He asserted that he had acted as an investigator for President Warren G. Harding, who "wanted some information" concerning Secretary of the Treasury Andrew W. Mellon in connection "with liquor withdrawals."

He asserted he had investigated Senator Robert M. LaFollette, Republican of Wisconsin, at the direction of Smith, after LaFollette had introduced his original resolution calling for a Senate investigation of Teapot Dome, and he calmly admitted he knew of LaFollette's mail being rifled, his office gone through and otherwise "investigated" him.

He declared he had also, at Smith's direction, "investigated" Senator Caraway, Democrat, of Arkansas, one of the authors of the last year's impeachment proceedings against Daugherty.

He said he had "investigated" Senator Bruce, Democrat, of Maryland, on behalf of some "financial people."

And, finally, he said, he had been suspended as an agent of the Department of Justice, because he became "too active" in investigating the oil situation and the Mexican situation.

Daugherty told him at the time of his suspension, Means said, that he was being suspended at the request of another cabinet officer. The inference was that it was Albert B. Fall.

Means told his amazing story in an atmosphere of tenseness in the crowded Senate room that has seldom, if ever, been equalled. He spoke easily, naturally, and seemed in a very good humor. Sometimes he threw the room in a gale of laughter with "wise cracks" about important officials in Washington and the relations he had with them.

Means said he had been selected for investigating work by the President because of a recommendation by Underwood.

"What under-cover investigation did you make in New York for the President of the United States?"
"Well, the prime investigation was concerning an arrangement that Secretary Mellon had gone in, to furnish certain permits.

We didn't get him that time. He slipped through our fingers that time."

"Who paid you for those investigations you said were made for the President of the United States?"
"Jesse Smith and Mr. Underwood."

Means said he had also investigated Senator Caraway, Dem., of Ark.
"I sent for Laura Jacobson to come up from Arkansas to help me investigate Senator Caraway and I let Jacobson do the work."

"When was this investigation ordered into the Senator?"
"When he was making an attack on the President and the Attorney General."

"Did you ever investigate Senator LaFollette?"

"Yes, sir. Jesse Smith gave me the orders."

"You searched Senator LaFollette's office in the Capitol didn't you?"

"No, sir. I know it was done."

"Have you gone through my office yet?"

"No, sir. If some one will assign

IN HER SLEEP SAYS
NORRISTOWN YOUTH**

Norristown, Pa., March 14. (INS.)

Exhumation of the body of Miss Louise Bruppacher, 17, was being considered by the Montgomery county Coroner today as a consequence of a confession made to police late yesterday by Harold W. Dean, 22-year-old printer, that he had chloroformed the girl to death in her sleep on the night of February 29. Miss Bruppacher was his sweetheart and he said he brooded over her choice of companions he considered undesirable.

The girl was buried March 6 after her death had been attributed to influenza. Dean was among the mourners.

DECIDED SUCCESS**

The Sophomore Class play given at the High School auditorium last evening attracted a capacity audience. The title of the play was "Eliza Comes to Stay" a comedy by H. V. Edmond and the manner of its portrayal highly pleased all who saw it.

Each part was very well taken, the young people engaged acquitting themselves in a highly creditable manner, reflecting great credit upon all who participated with special regard for those who tutored the embryo actors and actresses.

DEFAULTATION**

Philadelphia, March 13. (INS.)—Arraigned before a magistrate here today, Walter O. Beers, 24, a one-eyed, \$15 dollar a week clerk, charged with fraudulent conversion and larceny of \$25,701 from the Land Title and Trust Company, had his downfall blamed on a "Passion for betting on dog races."

Counsel for the Trust Company made this assertion, alleging Beers had lost heavily on the Atlantic City whippets.

Beers claimed inability to support his wife on the low salary caused him to succumb to temptation. He was held for court in \$8,000 bail.

She is survived by one daughter, Mrs. Ida Kline, of Shiloh, and one son, H. W. Graffius, of Clearfield.

Funeral services will be held at the Kline home Saturday morning at 10 o'clock. Rev. Moses, of Bigler, will officiate and interment will be made at Shiloh.

**JUDGE WILBUR WILL
BE NEW SECRETARY
OF NAVY; IS IOWAN**

Now Is Chief Justice of California's Supreme Court; Kenyon Would Not Accept the Place.

TEDDY SITS UNEASY

Washington, March 14. (INS.)—Curtis D. Wilbur, Chief Justice of the California Supreme Court, will be the new secretary of the Navy, succeeding Edwin Denby, who resigned on March 10 because of the investigation into naval oil leases.

President Coolidge prevailed upon the California jurist to accept the post after Judge Wm. S. Kenyon of Iowa, had declined to be "drafted" to serve. The acceptance of Justice Wilbur was received at the White House early this morning by telegraph.

Justice Wilbur will be one of the few graduates of the United States naval academy, who has occupied the naval post in the cabinet. He graduated at Annapolis in 1888, but forsook a naval career almost immediately and took up law, starting practice at Los Angeles two years later. He became a deputy district attorney in 1899, and in 1903 went to the bench where he has remained since.

Wilbur was born in Booneville, Iowa, and is 56 years old.

The President's first cabinet nomination is expected to go to the Senate at once where immediate action will be requested by Senator Shortridge of California, who was instrumental in getting Wilbur to accept the cabinet post.

Wilbur is not expected to come to Washington until the nomination has been confirmed by the Senate and in the meantime Theodore Roosevelt, Jr., will remain in charge of the navy department as acting secretary. Whether or not Roosevelt will continue to serve as Assistant Secretary after Wilbur takes the oath of office was a matter of conjecture today, but it was understood that Roosevelt would offer his resignation to the President.

**Committee Use Man Who
Tried to Bribe Daugherty
As Witness Against Him**

Washington, March 14. (INS.)—Gaston B. Means, former investigator of the Department of Justice, and now under indictment in New York on charges of endeavoring to bribe Attorney General Harry M. Daugherty, was the first witness called today by the Wheeler-Brookhart committee, in its investigation of Daugherty and the Department of Justice.

Means, who has figured in a number of trials and investigations took the stand over the protests of Daugherty's lawyers, who claimed that the fact that Means was under indictment in New York alone was sufficient to make him an improper witness. Means took the stand however, despite the protests.

**British Miners Will Take
A Vote On Strike This
Sunday; Walkout Likely**

London, March 14. (INS.)—A British coal strike loomed on the industrial horizon today as a result of the decision of the miners' delegates that they could not accept the compromise wage terms presented by the colliery owners. The miners will vote Sunday upon a strike.

Ten thousand railway freight handlers struck today because of wage dispute. Shippers are appealing to the government for intervention.

Comrade James Sutton, of Locust street who has been confined to his home for several weeks is not much improved at this writing.

PENNSY-GRAMS

Pittsburgh.—Income tax collectors offices here were swamped today with late income tax returns being filed.

Sharon.—Youngstown members of the party workers (Communists) are here to "investigate" the police department.

New Castle.—Ministers and the Woman's club here are at odds over the question of allowing dancing in the city schools. The school board has postponed decision on the dancing problem.

Pittsburgh.—Thirteen prisoners are being held here in connection with dope raids in Uniontown yesterday. Twelve other prisoners are held at Uniontown. Several women were arrested.

Pittsburgh.—Superintendent of Police Edward J. Brophy announced today that as a result of close watch on roads Pittsburgh is virtually "dry." Bootleggers are investigating the report.

Beaver.—Charged with assault and battery, Joseph Shavensky said the crime was the work of his twin brother.

The jury couldn't see the resemblance and returned a verdict of guilty.

Philadelphia.—Daylight "Savings" will begin in this city April 27 and continue until Sept. 28, according to a resolution of city council.

Philadelphia.—A new 48-hour vice drive started at 8 o'clock this morning.

**ROTES' PULL STUNTS
FOR ROTARY ANNES
AT DIMELING**

The Clearfield Rotary Club entertained their ladies and invited guests at the Dimeling Hotel last evening. About one hundred and fifty people were present and a most delightful time was had by all.

The Entertainment Committee presented a varied program following the disposal of the "eats." The chief feature of the "session of fun" aside from the appearance of Miss Ethel Lyman Mackey, soprano, and Miss Mary Hopkins Emerson, pianist, of New York City, was the "Reuben and Rachel" chorus put on by Manager Ed Reeve's Gazeam Dramatic Club.

There were four properly accoutred couples in the show, such well known stars as the Wilson boys, "Pop" and "Ward," Hobart Callahan and Sam Powellski representing the Rubes. The "giddy girls" making up the Rubes were Howard Stewart, Ralph Jordan, Russell Shaw and Thornton Hile. A quartette of Market street teachers helped "put the show across," which proved a real scream.

We would draw the broad mantle of charity over the next number and try to forget it were not our well known reputation for speaking the truth at all times at stake, and we must mention John Short's base drum solo. It was very much to the "Ta ra ra boom de ay," but was saved from the total loss by the magnificent cymbal accompaniment of y scribe. Thanks.

Miss Mackey's singing was greatly enjoyed, that young lady responding very obligingly to encore after encore. Miss Mackey and Miss Emerson entered thoroughly into the spirit of the occasion and gave full measure of their great talents to make the evening the success it was.

Song leader C. Glen Fickes of Harrisburg, also did his part well, while Joe Ketter, the Grove City entertainer, scored a big hit with his line.

President Albert and his efficient committee were heartily congratulated by all present on the success they made of the occasion. Roy Hyde, Albert Bigler and Gurney Smith made a committee hard to beat.

Russell Williams and John C. Armstrong left yesterday to drive to Williamsport to attend the sessions of the M. E. conference.

**MONESSEN A WINNER
IN BASKETBALL TOO,
HOMESTEAD LIKELY**

Pittsburgh, Pa., March 14. (INS.)—Monessen High School's basketball team fought its way into the last semi-final in the W. P. I. A. L. tournament here last night by trimming Connelville, 21 to 17.

With last night's victory the upstart team wins the right to meet the winner of the Homestead-Beaver Falls semi-final. Homestead is being touted to repeat its championship of last year.

Monessen came back after a bad start last night the Connelville Quintet scoring six points before the Monessen team got started. The first quarter, however ended 816 with Monessen leading. The Cokers regained the lead later in the game with a 21 to 17 score, but Monessen again rallied for a win.

**BROPHY CONTROLS
DISTRICT NO. TWO
DESPITE STILES**

Altoona, Pa., March 14. (INS.)—In the first real test of strength between John Brophy, President of District Number 2, United Mine Workers of America and followers of T. D. Stiles, Editor of the Penn Central News, a Labor Paper published at Crescon, showed that Brophy is in control of the District convention being held here.

On a motion to defer action on the President's report Brophy won by a 123 to 63 vote.

The Somerset county strike which cost the district more than \$1,000,000 was discussed the entire morning with heated harangues.

This is the third day it has been under discussion and much bitterness was shown between Brophy's followers and those who are questioning his course in spending a huge sum for strike benefits.

**Mrs. Stillman Wins Long
Court Battle To Head Off
Husband's Allegations**

New York, March 14. (INS.)—Mrs. Anne U. Stillman today won her long legal battle to prevent her husband James A. Stillman from re-opening of his suit to have Baby Guy Stillman declared illegitimate and seeking to establish grounds on which to sue for divorce.

James Graffius died at the home of his daughter, Mrs. W. F. Knepp at Shiloh Friday morning at 9 o'clock, March 7, 1924, aged 30 years 22 days.

Mr. Graffius was a devoted member of the U. B. church at Woodland for many years, taking an active part in church work since boyhood up until his health did not permit.

He was married in 1899 to Mrs. Charlotte Rhimer. To this union were born eight children, four surviving. His wife passed away nine years ago.

His children are as follows: Mrs. W. F. Knepp of Shiloh; Mrs. W. N. Fisher of Glen Campbell; Mrs. Port. Wise and Mitchell Graffius of Clearfield. A sister survived him at his death but she too passed away four days later on March 12 at 6 o'clock.

His twin brother passed away two years ago. He also leaves 44 grand children and 37 great grand children. The funeral services were conducted by Rev. Hunnell of Woodland. Interment in Shiloh cemetery.

**FIRE AT Y. M. C. A. SECRETARY'S
HOME**

The residence occupied by Secretary Book of the Y. M. C. A., and located at the corner of William and West Pine streets, was discovered to be on fire about 2:20 o'clock this afternoon.

The fire alarm was sounded and the firemen were soon on the job. The fire was located in the upper part of the house and had burst through the roof before the alarm was given.

**SEN. WALSH ILL;
THE PROBE OF OIL
LEASE IS HALTED**

Washington, March 14.—Investigation of the stock deals alleged to have been engaged in by public officials in connection with the leasing of Naval Oil Reserves to H. F. Sinclair and E. L. Doherty was suspended today until next Tuesday.

Today's sessions of the Senate Public Land Committee was called off a few minutes before the open hearing was due to start. The reason assigned was the illness of Senator Thomas J. Walsh, who has been the chief figure in the sensational investigation.

**LOCAL CONCERN IS
BRANCHING OUT
WITH A NEW PLANT**

Workman's Overall and Shir. Company Begin New Plant This Week at Grampian, Pa.

HAVE BIG OUTPUT

The Workman's Overall and Shir. Co., are to be congratulated upon the signal success which they have attained in less than two years, having been incorporated July 1, 1922. They are now putting out over fifteen thousand dozen pairs of overalls in a year and employ fifty persons, nearly all of whom are girls.

The company have outgrown their present quarters and have been compelled to start a plant at Grampian which will be an auxiliary to the main plant here. The building has been bought and, if the machinery arrives in time to be installed, they expect to start about April 1.

The products of this company in material and workmanship are second to none and the prices are lower for the same grade of goods, than their competitors.

The people of Clearfield and Grampian are to be congratulated upon having such an enterprising company located in their midst.

The president of this growing organization is A. C. Schmitt, secretary is J. S. Mann and vice president is E. Clair Davis.

**"WHITE HORSE" NOW
A "WHITE ELEPHANT"
SAYS PHILIPSBURGER**

Booze, these days, is bound to get a fellow in trouble regardless of whether he drinks it, sells it, or just has it lying around. That this is true Brooks and Jim Butler, of Philipsburg, are willing to bear witness.

Some time ago a series of big robberies were pulled off in Philadelphia by a gang of crooks who did a little bootlegging or rum running on the side, when police activities made their regular occupations hazardous.

One of the gang was taken into custody last week and on his person was found a letter from one of the Philadelphia men which read: "Still have my stuff on hand; haven't been able to get rid of it yet." A Philadelphia detective came to Philipsburg yesterday and accompanied by P. B. R. officer Henderson of Osceola and State Troopers Barker and Pierce made a search of the Butler home at Point Lookout expecting to find some of the loot stolen in Philadelphia. They were disappointed however, but the search did reveal three suit cases full of alleged bonded liquor. This was evidently "the stuff" referred to in Butler's letter and had evidently been in his possession for some time as the newspapers in which each bottle was wrapped were dated November, 1922.

The whiskey was labeled "White Horse," and it proved to be a "White elephant" for the Butlers as the liquor was confiscated and the two men held in \$300 bail each by Squire Morgan at Chester Hill, for their appearance at Clearfield county's May term of court.

Arranging Flowers.

It is most effective in a tall glass vase. Almost all flowers have great beauty in their stems, hence glass vases give them the greatest beauty when they are cut, by showing the stems. It should be arranged only with its own foliage. Wild flowers should always be loosely arranged, and they should be placed by them selves—not in close proximity to the highly cultivated garden sort.

Serbian Superstition.

On the eve of St. Barbara's day in Serbia it is a custom to boil a small portion of every species of grain in a pot over a woodfire. In the morning the surface of the grain is critically examined, and should it be uneven, it is thought a good omen. The grain is then thrown in sponges into a neighbor's stream, and if three wishes are asked for they are always said to be granted.

World's Thickest Tree.

It is said the largest tree known, in thickness, is a partly-decayed chestnut in Sicily, which is 80 feet across. Mexican cypress and the oriental plane have reached 40 feet. This puts the California big tree and the baobab in the background, but the big tree is of greater bulk in combined height and girth and the baobab is thickest in relation to height.

How Moving Signs Work.

In a general way, the mechanism of a moving electric sign is like the old time music box drum, filled with pins. As the drum revolves the pins scrape the contacts at determined intervals, and the illusions of revolving circles of light, bird, effects and designs almost without limit are produced.

"Licked into Shape." The expression "licked into shape" arises out of the popular superstition that a bear's cub is born an amorphous mass, and is licked into shape by its mother.

People With Bad Blood and Weak Stomach Suffer Most in Winter

Each Year During the Winter and Spring Thin Blooded, Anemic People Are the First to Catch Colds, Pneumonia, and Are Easy Victims of Other Diseases

LOCAL DRUGGIST SAYS WE ALL NEED
STOMACH AND BLOOD TONIC THIS TIME OF YEAR

**RICHER BLOOD, GOOD
APETITE, MORE PEPS**

Stick in Time Saves Nine—Druggist

Results

Elderly people and those suffering from various forms of stomach trouble, whose blood is not as rich as it should be, are among the first to catch colds, pneumonia and the various other diseases that are so common during the Winter and Spring. This is especially true when systems, that were none too strong at the beginning of Winter, have been weakened by the months of cold weather.

Weak, frail and delicate people are always the first victims. They take cold easily and do not have the strength to keep it from developing into pneumonia and various other fatal diseases. With the assistance of the right medicine, however, they can easily build up and strengthen their systems so that they will be as immune to disease as other people.

The blood can be enriched and with plenty of rich red blood you will not mind cold or the alternate warm and cold days of early Spring. Your digestion can be stimulated and your appetite increased so that you can digest the heavier and more nourishing foods your body needs at this time of the year.

The druggists here in Clearfield have joined the Nation-wide drive to make people see the wisdom of taking a good strengthening blood-enriching appetite-increasing medicine at this time of the year, like our forefathers did. Druggists are in position to know the need of such a medicine and see every day the foolishness of attempting to withstand in a weakened condition the winds and rains of March and April when it freezes at night and thaws out during the day. They know that more people die during the early Spring than at any time of the year.

In Sulac, a certified product of Southern Laboratories, Incorporated, Atlanta, Georgia, has been found the ideal builder for this time of the year. It has a long record of success in other territories and while it has not been on the local market for a long time, it is proving as successful here as in other sections. Sulac is not an experiment, it is a proven success and if your health is not all that it should be, the wise thing for you to do is to give it a thorough trial. Sulac, you know, is sold on a satisfaction or money-back guarantee.

Sulac is sold by Hunter's Drug Store, Clearfield, Pa., and other high class druggists.

Prominent Mill Man Regains Health Easy

Never Completely Recovered From
Sick Spell Years Ago—At
most a Wreck

TAKES SULAC NOW IS
ENJOYING LIFE AGAIN

"This Sulac they are recommending at the drug stores is the most wonderful medicine I ever tried," enthusiastically declared Leo J. Gagnon, a well known employee of the Olney Cotton Mills.

"A sick spell several years ago completely wrecked my system and I never was able to regain my robust health. It was during the winter months that I moved to Worcester from Stoughton Springs, Conn., and exposure to the cold and wet brought it on. I nearly died. My poor stomach never got strong enough to digest food right. After meals I would have dizzy, bloated spells, stagger around hardly able to see or read on account of the spots before my eyes. My liver was sluggish and my kidneys were so weak I was troubled a lot of nights. I would get short of breath and things would go black in front of me. I felt like a man of 75 or older. For five years I had something wrong with me all the time and I tried every thing until finally friends urged me to try this wonderful new medicine called Sulac. I never dreamed the chemists had made such big improvements in medicine. It was wonderful and in a few days I gained four pounds. My stomach began working like a charm. I ate down now to a meal and fill up on good substantial food and it never bothers me to sleep. I can read a paper after a meal—never get dizzy and feel better and younger than in years. It is wonderful and anybody troubled like I was can get the same results if they will take it regular. It surely has given me a new lease on life and no mistake."

Right now everybody should sharpen their appetite for hot cakes and meat which our bodies need if we want rich, warm blood, lots of disease resistance and good health this winter. Read what another Sulac user says on the right. Drop into a drug store tonight. Ask the nearest clerk to show you Sulac and tell you about it. Chemists claim it is by far the most effective reconstructive remedy made.

Real Estate Man Suffered Years With Stomach

One Bottle of New Remedy Does
More Than Years of Trying
Other Things, He Says

TAKES SULAC, GAINS
NEW LEASE ON LIFE

The other day a gentleman who is known by thousands all over New England, walked into a Worcester drug store. He came all the way to Worcester to get three more bottles of Sulac and to tell the store what a wonderful remedy Sulac is. All his many friends know he has complained and suffered with stomach trouble for years and doctors, treated, dieted and done everything known in an effort to get relief. "I've come all the way to Worcester to get these three bottles of Sulac and if they were the last three bottles I could buy I wouldn't take a thousand dollars for them," enthusiastically declared this popular real estate and lumber merchant of Barre, Mass. Mr. Charles B. Mathews, former selectman of Holden, and father of six boys and two girls.

"For four years I suffered untold agony with my stomach. I would fill up with gas and get so bloated after a meal my heart would palpitate so I could hardly breathe. I felt like a ton of lead was inside me pressing me down. I had nagging headaches. Constipation worried and kept me busy taking pills. I had every symptom you can imagine. I doctored, doctored and doctored and did everything folks told me to do. You can tell all my friends now, however, that one bottle of Sulac did more for me than all the other treatments put together. I can truthfully state that my stomach is in better condition than in years and with these three bottles to finish up on I'm going to be in perfect shape. It is the greatest reconstructive medicine money can buy and I figure Sulac has given me a new lease on life," continued Mr. Mathews.

Thousands of people in sections where Sulac has been thoroughly tried out are calling it the world's greatest remedy. They have seen what a wonderful results it brings and feel that they are in position to know what they are talking about.

Sulac is a certified product of the Southern Laboratories. It is made of the finest ingredients and guaranteed to be one of the finest quality and purity. Sulac is sold by the leading druggists of this section. Give it a fair trial and if you do not find the results entirely satisfactory, the druggist who sold it to you is authorized by the manufacturers to refund you money.

ODDS AND ENDS AND THINGS

By J. D. C.

That the spirit of fellowship and comradeship of the trenches and the life "over there" engendered in the hearts of the men of the allied armies may be evidenced by the fact that at Curwensville last Sunday, Aviator Pearson, the U. S. mail clerk, who lost his life in last Friday afternoon's blizzard, it will be remembered was a member of the Canadian flying corps during the war. When his body was brought to the undertaking rooms in Curwensville and prepared for burial the members of Joshua Sipes Post of the American Legion took note of the fact that a comrade in arms had "gone west" and had a committee representing the Post secure and place on the casket a handsome floral wreath decorated with "Old Glory" and the "Union Jack" and that final tribute of one ex-service man to another went with the remains when they were shipped to Chicago and their final destination in Canada. It was a little thing to do but it expressed a world of thoughtfulness and sentiment.

Manhood is the weakest and most imperfect of animals and is prevented from doing useful work because of his shape, according to Professor F. W. Bar-tall, dean of the faculty of science at Birmingham University. "If I were to design the men and women of the future, I should make them spherical and provide them with wings and feathers," said the professor in a recent speech. "A spherical configuration would enable men to establish a four-hour working day and do as much work as present-day men can do in eight hours," he added.

Thanks for "them kind words." They go far toward reconciling us to our present architecture. We don't have far to go any more for "ofrm" although we are some shy and feather.

The Pope will elevate Archbishop Hayes, of New York, and Mundelein, of Chicago, to be cardinals in the Roman Catholic Church at a consistory to be held on April 10th. This elevation of these two eminent churchmen will make an American representation of four in the College of Cardinals.

Because of the necessity of having cardinals in readiness to attend to the multitudinous details incident to the administration of the Holy See, the Sacred College has a greater number of Italian cardinals than of any other nationality. Of the seventy cardinals who will constitute the Sacred College after the elevation of Archbishops Hayes and Mundelein, Italy will be represented by 29 members. Then comes Spain with seven, France with six and the United States with four. Other countries are represented as follows: Germany three, England two, Austria two, and one each in Ireland, Czechoslovakia, Brazil, Belgium, Portugal, Holland, Canada, Hungary, Poland and Monaco.

Ancient Governments Similar.
The Aztecs and the Incas had governments much like those of European nations of the same era. Anthropologists do not consider this an evidence that there existed a prehistoric link between the old and the new worlds. Men under similar environments develop similar institutions.

SIMPLE WAY TO TAKE OFF FAT

There can be nothing simpler than taking a convenient little tablet four times each day until your weight is reduced to normal. That's all—just purchase a box of Marmola Prescription Tablets from your druggist for one dollar, the same price the world over. Follow directions—no starvation dieting or tireless exercising. Eat substantial food—be as lazy as you like and keep on getting slimmer. And the best part of Marmola Prescription Tablets is they are harmless. That is your absolute safeguard. Purchase them from your druggist, or send direct to Marmola Co., 4612 Woodward Ave., Detroit, Mich.

Smart Whims of New Hats

March Millinery

Spring hats all have some way of revealing happy dispositions. Some have gay circles of petit point on their crowns and many are sunshiny with Roman striped ribbon. It's easy for women to smile from under the brims of hats as jolly as these.

Tricornes for Chic

"Feminine hearts will be cornered" came into our heads as we saw the irresistible tricornes of taffeta. Fitting down tightly over closely-clipped heads, they are truly smart with their simple cocarde trimmings. A flannel frock of most any color can be perfectly matched, you will find.

Surely a Variety

They are like the whims of a charming woman, unexpected but delightful. Lustrous taffeta and pliable satin are combined, in many cases, with new silky straws. The sweeping lines of a black tricorn have for sole adornment a lace veil which winds around the throat. Embroidery in Spanish shawl pattern makes vivid a rather large picture hat. Crowns of petit point are seen on the newest cloches, and faille ribbon is cunningly fashioned into skullcaps and turbans. Colors are vivid or delicate, and sometimes have a black background.

LEADCLAD

Nothing but PURE LEAD exposed to weather.

Lead cannot rust.

Why spout your building every four or five years? Use LEADCLAD and save worry and expense.

LEADCLAD is made by coating a special analysis base with an extra heavy coating of pure lead by a process that positively eliminates pin holes or fractures in the coating. We have termed LEADCLAD as a 60-pound coating, which is 50 per cent heavier than the coating on ordinary 40-pound tarps, but in reality, LEADCLAD carries a coating equivalent to about 66 pounds per box of 412 sheets. This is almost three times as much as the coating of zinc applied to Galvanized sheets. LEADCLAD will last without painting at least twice as long as Galvanized or tin plate, and when we make this statement, we are playing safe because in practically every instance, LEADCLAD has lasted four or six times longer than Galvanized material of the same gauge and under the same conditions.

REPUDIATING MOHAMMED

It is a bold thing that the Turks are doing in banishing the Caliph, seizing church property and virtually banning the Mohammedan religion in Turkey. They may make or break the Turks. Always the Turks have been associated with Mohammedanism. They were fiery followers of the Prophet when as a semi-barbarous tribe they invaded Europe and seized Constantinople. For 400 years the ruler of Turkey was the spiritual head of the Moslem church, until Mustapha Kemal, head of the Turkish Nationalists now in power, separated the church and state a year ago, exiling the old Sultan and turning the Caliphate over to his heir, Abdul Medjid. Now Turkey follows the example of Soviet Russia with the Greek church, and going further than Lenin dared go. Turkey and Islam at last are divorced. The other 200,000,000 or so of Mohammedans, in Asia, Africa and southeastern Europe, may do as they like, but Turkey will have no more of Mohammed, in whose name Turkey so long waxed great and powerful.

The Turks now stand absolutely on their own feet. They need no longer expect any support from Mohammedan countries, religious or military. They have dealt a blow at Mohammedanism itself in repudiating the faith, and thereby made Christendom a little easier in its mind. A new uprising of Islam is now hardly thinkable. But how about Turkey itself?

The Turks have always been soldiers and despots. When they were prosperous, their prosperity came from the exploitation of other faiths and races. They have not been builders, in art or literature or industry or commerce. When not fighting they have been mainly farmers of a crude sort. Their economic life has been carried on mainly by Greeks and Armenians, whom they have recently exiled or reduced to helpless poverty.

It will be interesting to see whether the Turks can really function and prosper as a modern nation, when they renounce the very things that made them great in the past. This may be the new birth of a nation, or it may be national suicide.

Progress Editorials for Women

By FLORENCE DAVIES

Feeling a beating the boy ran away from home. Thus runs the old tragic tale of oppressed childhood. Since time was, boys have left home because their parents were cruel to them and girls have run away because they were forced into drudgery.

Would it surprise you to learn that not only boys, but loving attention comes to drives a child away from home.

Too much love never hurt anyone. Not if the love is the right kind. But a good deal that passes for love is often as destructive as cruelty.

A New York bureau whose business it is to trace missing folks has actually coined a name for the parents who are too good rather than too cruel to their children. They call them the "glass-case" parents. They are the kind who keep their young folks so tightly shut up in glass cases that they can't breathe. They aren't cruel about the confinement. Not at all. They are very loving. But their love is stifling, oppressive. And that kind of love is sometimes as hard to bear as cruelty.

The story is told of a young girl who lived in a home where she had every comfort. Clean socks were neatly laid out every night, buttons were changed in collars and cuffs of clean shirts, meals were wholesome and regular and two loving parents appeared shivering in bath robes to greet the young darling after his return from an evening's outing.

Then one day, without word of warning, supper grew cold while they waited for their darling to come home. The police bureau found him finally in Brazil, where he had shipped as a deck-hand on a steamer.

He hadn't really wanted to hurt his parents, but he just couldn't stand the pressure; he had to expand, to burst his bounds, to get out of the glass case and be himself.

Nations, like individuals, hold freedom as their dearest possession. And just as surely as darkness follows day, the dawn of personality of the individual brings with it a desire for some untrammelled expression of that personality.

The thing that the glass case parents do not see is that kindness as well as cruelty stifles that fundamental need for freedom of expression. There are a good many forty and fifty year old sons and daughters who are grown grey in the service of either parent or husband or wife, who sometimes feel the oppression of a great kindness.

If you are wise in the needs of human nature, you will understand that there are times when a little judicious letting folks alone, is the greatest gift that you can make to them.

Modern Methods in Philippines.
The practice of planting cowpans on sugar lands between crops to increase the soil fertility is being successfully introduced in the Philippines.

Takes pills for years—finds first permanent relief in Kellogg's Bran

Have you found permanent relief from that terrible disease—constipation? The woman whose letter follows discovered—as thousands have discovered—that Kellogg's Bran succeeds when all else fails. This is because Kellogg's Bran is ALL bran. Nothing but ALL bran can be so effective. This is what she wrote:

"Gentlemen:

I am so wonderfully happy over my discovery. I feel I must tell the world about it. For years I have been in continual distress from constipation, always resorting to pills or other means, never having any permanent relief until I heard of your Bran.

Every morning I take two tablespoons before my breakfast—and since the latter part of August I have not had any constipation. I have had for years. I have started my little girl

of four years on your Bran, and already I have noticed a change in her. I thank you."

Name and address furnished on request. Write the Kellogg Co., Battle Creek, Mich.

If eaten regularly, Kellogg's Bran, cooked and krumbled, is guaranteed to relieve permanently the most chronic cases of constipation. Eat at least two tablespoons daily—in chronic cases, with every meal. Money returned, if not effective.

Notice the wonderful nut-like flavor. This flavor is delicious—so different from ordinary, unpalatable bran.

Kellogg's Bran, cooked and krumbled, made in Battle Creek, is served by America's leading hotels and clubs. Demand Kellogg's Bran. It will bring back your health. Start eating it today. Sold by all grocers.

Hottest Taxes.

"The taxes are indeed very heavy, and if they are laid on by the government with the only aim we had to pay we might more easily discharge them; but we have many others and much more grievous in some of us. We are taxed twice as much by our illnesses, three times as much by our pride and four times as much by our folly."

Thawing Pipes With Electricity.

Electricity is the only agent which will thaw frozen water pipes without their being dug up. With the action of electricity the pipe can be easily thawed in a short time, the passage of current through the pipe heating it sufficiently to melt the ice.

Without Aid.

Robbins had been very sick and the doctor had called once more to hurry to his bedside. He hurried as fast as he could and arrived out of breath. "Am I in time to be of any assistance?" he asked. "None, you're too late, doc," answered one of the lodge members. "He has made it by himself."

Stubborn Coughs Stop Quick With Home Made Cough Mixture

Not until you make your own cough mixture—a half pint of it for a small child—will you know how easy it is to make. I had persistent cough as if I had a cold.
It was pleasant-tasting, but that didn't stop it from knocking out a cough whenever I tried to do anything else in the world. Children love it.
Get children's cough drug, or any drugist, and make of Parvint (though it might be to this add a little powdered sugar, as directed) and enough water to make one half pint—stir all there is to it.
This loosens the phlegm, stops the irritation, always the inflammation, clears out clogged nostrils, makes breathing easier and causes sore throat and hoarseness to disappear. With speed almost beyond belief this home-made cough mixture stops the toughest head-on cough, and all because in it there is a substance (the curdy for ordinary cough syrup) that immediately covers the inflamed throat like a soothing healing balm and blessed relief comes at once.

Fresh Strawberries Tomorrow

Of course, as the season advances, these strawberries are getting nicer and nicer. They are ripe and great large berries. They come in heaping baskets pressed down tight.

THE CONQUEST OF SMALLPOX

Smallpox found its way into America in 1607, 16 years after the discovery. Ten years later it destroyed the greater part of the population of Santo Domingo, and in 1520, it is said, 3,400,000 persons died of the disease in Mexico. It was the chief agent in wiping out the Indians. In some parts of Russia in 1850 smallpox caused the death of 80 per cent of the population, nearly all of the children in certain towns dying of it. These facts enable one to appreciate the statement of Dr. Wilmer R. Batt, chief of the Bureau of Vital Statistics, that not a single death from smallpox was reported in Pennsylvania last year.

Latin America

The term Latin America includes all the countries of South America, of Central America and Mexico, so called because they were settled and peopled by Latin races, chiefly Spanish. They all speak the Spanish language in different degrees of purity, except Brazil, where Portuguese is the national language, and Haiti, where French is national. Portuguese and French, however, are classed as Latin languages.

Insulation Here.

"The semiannual appearance of the assessment blanks," said Sackville McCullough, "reminds me that people seem to have a whole lot less money and more in their possession at such times when they report robberies."

Where Finest Opals Are Found.

According to some authorities there is only one locality in the world where the finest kind of opals are found. It is the Dabnyik mine, near Czerwenitz, in Hungary. At any rate, opals have been taken from that mine for many centuries. The ancient writers speak of opals coming from India, but the precious variety is not now found there, whatever may have been the case in the past.

Comfortable for Baby.

Babies are carried over rather in long pillows by the peasant women in Hungary. A baby is laid on the pillow, the end is lapped over and is usually long enough to come up to the infant's chin. A string is then tied around the pillow holding it close about the youngster, thus making a snug and comfortable little bed.

"Finicky" Appetites.

Folks with "finicky" appetites are not in the best of health. Either they are afflicted with some disease or else they are too lazy or indolent to give their bodies sufficient out-of-door exercise.

Giving Pleasure to Others.
The most delicate and the most sensible of all pleasures consists in promoting the pleasures of others.

Exasperating COUGHS—

NOT only you—but all those around you are annoyed by the constant hacking of a persistent cough. Dr. King's New Discovery breaks coughs quickly by stimulating the mucous membranes to throw off the clogging secretions. Has a pleasant taste. All druggists.

Five Disc Wheels and Nash Self-Mounting Carrier, \$25 additional

Vital Values! Beneath the handsome body of this Nash Six Touring are significant elements of construction responsible for its superb performance. For example, a carburetor stove completely vaporizes the gasoline and produces an extraordinary volume of smooth, vigorous power. The chassis framework is ruggedly bulwarked by five stalwart cross-members; two of these are of tubular type. We urge you to examine the many merits of this model today!

The Knit-tex Coat

If we were lucky enough to be able to talk to every man who is going to buy a Spring overcoat, we would give him this friendly advice: Come in here and try on a Knit-tex coat first before you buy one.

Knit-tex is different from any overcoat you have ever worn. IT IS GUARANTEED FOR THREE YEARS' CONTINUOUS WEAR. It is warm as toast, soft as velvet, and so light that you hardly know you have an overcoat on your shoulder.

Knit-tex is knitted—but you would never know it. The cloth looks like a fine imported overcoating. We have Knit-tex in many beautiful shades of grey, tan, brown, green, blue, heather and Scotch mixtures. Wouldn't you like to come in and just try one on?

Curwensville's Own Column

The Knights of Pythias Lodge held an initiation last night in their rooms. After the regular business had been transacted they enjoyed a smoker and social evening.

George L. Benner left this evening for Philadelphia, where he will transact business.

Dr. G. C. Jenkins has disposed of his southwest lot in the rear of his residence on State street; dimensions 86 by 78 feet.

F. F. Tate is remodeling his residence inside and out. He tore the whole front off his house and is rebuilding it with the latest improvements.

Richard Grant, of Pittsburgh, spent several days in town among friends.

Mr. and Mrs. Arthur Robinson, of Thompson street, gave a delightful party Friday afternoon in honor of their daughter Marjorie's birthday.

Dr. James S. McGaw, widely known as "America's rapid fire evangelist," will make two addresses in Curwensville Sunday. At the morning service in the First M. E. Church he will preach on "America for Christ," while in the evening in the Presbyterian Church the subject will be "The International Christ."

Consnack Superstition.
Among the numerous superstitions of the Consnacks there is a belief that they will enter heaven in a better state of moral purity if they are personally clean when killed in battle.

Sawed-Off Sermon.
Sometimes a girl makes a fool of herself over a man, and sometimes she marries the man and makes a fool of him.—Indianapolis News

Penn Family Claims Liquidated.
The claims of the Penn family to Pennsylvania were extinguished at the time of the revolution. The commonwealth paid Penn a heirs to relinquish their proprietorship.

Wise Advice.
Choose always the way that seems the best, however rough it may be. Customs will render it easy and agreeable.—Pythagoras.

Spiritual Mongrels.
The religions in Russia are almost as diversified as the races. In European Russia the Greek church rules. In Asiatic Russia there are Mohammedans, Buddhists, Jews and Christians.

Reading Print.
It is more difficult to read a line of print when the upper half is covered than when the lower half is covered. Try this and see for yourself.

Farmer Has Terrible Experience

"I don't think anybody ever suffered more pain than I have. Twice I was operated for gall stones and a third operation was advised. A friend in Iowa wrote me how he was cured by taking May's Wonderful Remedy. I took a bottle on his advice with good results and have also taken the full course. My pains are all gone and I feel I am permanently cured." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.

RECOVERING FROM SERIOUS OPERATION

Miss Meriam Smith, daughter of Mr. and Mrs. A. Clyde Smith of Bellefonte, who is a surgical patient at the Clearfield hospital, is improving nicely. Miss Smith had an infection of the spine and Dr. Waterworth performed the difficult operation of bone grafting. A piece of bone ten inches long, in two pieces, was taken from the shin bone and grafted into the vertebrae. She responded splendidly to the treatment and is now on the road to recovery.

Fate of Early Poisoners.
In medieval times in Europe poisoners, when detected, were usually broken alive upon the wheel, after having first been given a taste of the rack while in prison awaiting execution, as a sort of gentle reminder of what they had presently got to go through.

Rye Grass.
Rye grass is believed to be the oldest grass specially raised for forage, having been thus cultivated in England more than two centuries ago.

Would Be a Boon.
Any guy who would invent something effective to take the cut out of the cutworm would be sure of everlasting fame.—Boston Globe.

The Difference.
A woman glances into a mirror to confirm her impression that she looks all right; a man stares into one in order to bluff himself into thinking he does.—Philadelphia Inquirer.

Primitive Life in Turkey.
Owing to the lack of wood of kind in one of the interior districts Turkey, all houses in both towns and country are built of mud-bricks called "kashpich," which is a mixture of mud and straw. The houses are not large and part of them is always used for the stable, one or two rooms only being reserved for use of the family which lives in the simplest and most primitive manner. Everyone sleeps rolled up in a blanket on the earth floor.

Matches of Hemp.
In the use of early firearms a match consisted of a cord of hemp or similar material twisted with nitre so that it continued to smolder after it had been ignited. The match was attached to the cock of the musket and brought down by the action of the trigger on the powder priming.

Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole. Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister. Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness. To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c in jars and tubes.

MUSTEROLE
Better than a mustard plaster.

Senate Defeats Norbeck-Burness Farm Aid Bill By A Vote Of 41 To 32

Washington, March 13 (INS.)—The Senate by a vote of 41 to 32 today defeated the Norbeck-Burness farm Aid Bill appropriating \$50,000,000 to loan to farmers of the wheat regions to purchase live stock and to diversify crops. The bill would have authorized the Secretary of Agriculture to make loans to farmers not exceeding \$1,000 each.

Suicides.
Records are said to show that the tendency to suicide is more prevalent among the educated and wealthy than among the poorer and middle classes.

"Draw" Shots in Golf.

The flights of golf balls and the in the air are similar to the trajectories of billiard balls on felt cloth governed by the same laws. A ball with a brassie on the under side of a golf ball is precisely the same as a draw shot in billiards. The golfed ivory needs the rough surface of the felt to produce resistance, and the tenuous air needs the corrugated surface of the golf ball for the same purpose.

Missouri River Longest.

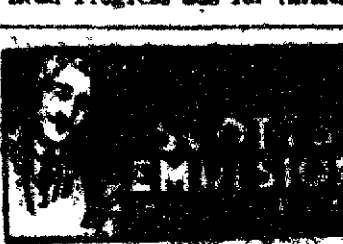

The Missouri river is not only the longest river in the United States but it is the longest river in the world. Its actual length in miles is 4,344. The Amazon, the next longest, which traverses Brazil in South America, is 3,941 miles. The Huang-Ho in China and the Murray in Australia rank with 3,000 miles each. The Mississippi, often thought of as the greatest of rivers, is in reality only 2,310 miles long.

STOP!

GO!

It is dangerous to Go, when the signal says Stop! To heed warnings is to save life.

The Stop! signals for health are such warnings as backache, shooting pains, recurring headaches, chilliness, dizziness, nervousness, irritability, moroseness, rheumatic twinges, swollen joints, gout.

These signals warn you that there is a "traffic jam" in the kidneys, and the "Go" signal can't be utilized until the clogging poisons (uric acid, mostly) are flushed out.

Drinking a glass of hot water each morning is effective, and before each meal take an An-uric tablet (anti-uric acid).

See into any drug store and obtain An-uric tablets, discovered by Dr. Pierce, Pres. and made at the famous Invalids' Hotel, Buffalo, N. Y. Or, send Dr. Pierce 10c for a trial package.
